

INTERNAL RESOLUTION ON A UEF FINANCIAL TASK FORCE

The UEF Congress, meeting in Brussels on the 25-27 March 2011:

- Considering that in the last 10 years UEF has been facing major financial difficulties which may represent a threat to its Europe wide development and consequently its political credibility and efficiency,
- Considering that targeted spending cuts and participation fees for mandate holders attending the statutory meetings do not constitute a proper funding strategy,
- Considering that the participation especially of the young federalist activists represents one of the most important targets to strengthen the federalist organisation,
- Calls upon the newly elected European Bureau to develop a proper UEF funding strategy.
