In view of the convening of the extraordinary Congress on 6 April 2024

Dear Presidents and Secretary Generals of UEF national sections,

On behalf of the EB I am contacting you to share some information before the FC meeting next Saturday, 20 January.

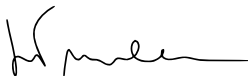

In view of the extraordinary Congress, currently set for 6 April and - as decided in November during the Ordinary Congress - called to express its opinion on some amendments to the statutes that will be presented to the FC on Saturday, we would like to make the following proposal regarding delegates; that is, to maintain the same numbers of the ordinary Congress in November for the national delegations, and to allow those sections that wish to do so to simply confirm the delegations that were established on that occasion.

The extraordinary Congress will have a very limited duration (no more than one hour), and will be in hybrid format. It will take place immediately at the beginning of the morning, and then be followed by a Federal Committee in presence. Since almost all FC members were also delegates to the Congress, there will be a lot of overlap between the participants in the two meetings.

We preferred to bring this proposal to your attention in advance, so that the sections can consider it calmly before the Federal Committee. Should you find it useful to discuss it directly, we are available for an online meeting on Friday evening at around 6 p.m. The meeting is not convened at the moment, but can be if there is a request.

Thank you for your attention and cooperation.

With federalist regards

Luisa Trumellini

UEF Secretary General
