OUR POLITICAL MANIFESTO

Political Manifesto [LINK](#)

The manifesto is the basis for our political actions.

The UEF has made a commitment to promote the contents of this manifesto among the European political families so that they can be included in their programmes.

The challenges ahead

The necessary policies

A number of changes to this end are necessary, which were also discussed during the elaboration of the amendment proposals by the European Council.

1) the extension of competences and thus the possibility of political autonomy for the Union:

a) exclusive competences in the field of environmental policy and the protection of biodiversity - a very important step because environmental protection has cross-cutting applications over a vast number of other policies;

b) competing competences in energy, industry, civil protection, health and education;

c) strengthening foreign and security policy through the extension of majority voting in the Council;

d) creation of an initial core of the Defense Union through the creation of military rapid intervention units under a single integrated command;

e) extension of majority voting for the adoption of the decision on own resources and the multiannual financial framework to enable the Union to become the master of its own budget, which can be used to pursue its objectives and condition the actions of the Member States through conditionality policies along the lines of the NGEU;

f) introduction of majority voting in the

2) the consolidation of the bicameral nature of the European Executive ('Executive'):

g) extension of the legislative procedure to the areas whereby Parliament shall exercise the role of political control alongside the Council in decisions by the Executive;

h) granting Parliament legislative initiative and the right of judicial review in the area of Justice if a Member State fails to comply with its obligations;

i) reform of the role of the President of the Council;

l) selection of the President of the Council to be confirmed by the Council;

m) decrease in the number of members making up the Executive chosen on a political basis by the President himself, taking into account demographic and geographical balance;

n) reform of the European Council, consisting only of the Heads of state or government and the President of the Union (i.e. the European Executive).

URGING MPs, NATIONAL PARLIAMENTS and GOVERNMENTS

After the vote on 22 November, in view of the decision by the Governments on the Convention for the Treaty reform, we need to inform and urge politicians at national level.

Draft Resolution for national parliaments

Draft Resolution

The Parliament, National Assembly, Chamber of Deputies, Senate ...

Recalls the results of the Conference on the Future of Europe, the first experiment in participatory democracy on the part of the European Union, which involved European citizens, as well as representatives of the Parliaments and Governments of the member states and of the EU institutions;

Recalls the analysis of the Legal Service of the Council of the Union as to which proposals that emerged from the Conference on the Future of Europe required amendments of the European Treaties in order to be implemented;

It notes that the European Parliament, also on the basis of this analysis, has prepared a comprehensive reform of the Union, consisting of a series of amendments to the Treaty on European Union and the Treaty on the Functioning of the European Union, which it approved and thus formally submitted on 22 November 2023, on the basis of the power conferred on it by Article 49 of the Treaty on European Union.

Vorschlag des Europäischen Parlamentes für eine Änderung der EU-Verträge

Sehr geehrte Bundestagsabgeordnete,

Building a Network of personalities inspired by Jean Monnet's “Action Committee for the United State of Europe”

UEF started a discussion with the possibility to re-launch the Action Committee for the United States of Europe.

The 18th January the UEF and JEF celebrated with a public discussion to commemorate the first meeting of the said Committee, which Anniversary is taking place tomorrow.

Pledge - Multilingual

In Spring, when hopefully the decision to open the Convention will have been taken and the European election campaign will start to get into full swing with the presentation of the electoral lists and candidates, UEF must start the political work with the candidates and with the citizens to make them understand what is at stake in this European vote.

CANDIDATE MEPs Pledge
Candidates will be asked to commit themselves, if elected, to a federal reform of the European Union and to give their availability to join the Spinelli Group

FOR CITIZENS & CIVIL SOCIETY

For the 2024 European elections, national and local sections need to mobilise in order to:

- inform citizens about the importance of this European vote;
- recommend citizens to vote for candidates who have signed the pledge.

Sections can organise also online and in-person events with political candidates from the various political families and challenge them about the future of Europe and whether or not they will support treaty reform.

- ***Saturdays for Europe***
- ***Online and in-person events with political candidates***

UEF Secretariat will provide:

- **website campaign**
- **visual graphics for banners, flyers, banners**
- **Federalists Papers to explain the main topics**
- **video pills to promote the main topics (realized in collaboration with EU Made Simple)**
- **video pills about the Manifesto and about the pledge**
